Thibault NORMAND

Cyber Security Engineer / Software Architect / Instructor

Full time / Part-time / Freelance

Introduction

Former developer and security enthousiast, I like to deal with projects combining these two skill sets. My experience in development, as well as my curiosity for new technologies, allow me to have a look forward to the future.

I put real importance in sharing knowledge and skills within my job environment.

Eager for knowledge, I'm always looking for challenges and exploitation of new knowledges.

Persona

Strengths	Weaknesses
Autonomous	Ambitious
Versatility	Verbosity
Taking initiative	Critical
